

Arvin Home Systems

Hello Everyone!

It's that time of year again - Daylight Savings Time. Now, for those of you who've had your alarm system installed in the last couple of years, you won't need to do anything -the alarm system will correct itself. But if it doesn't, then check out our website at www.arvinhomesystems.com and click on the keypad that looks like yours. A 'cheat sheet' will pop up giving you the most pertinent commands for your system.

In case you don't have internet access though, here is the part for resetting the time and day:

SETTING THE CLOCK	
To Set the Clock:	(24-hour format)
* 6 (master code)	1 H H : M M
	then
	M M / D D / Y Y #
(NOTE: Wait up to five minutes for the clock to adjust!)	

Also, to make sure we give all of you a chance to make things more efficient for you and us, you can now save time and money with our Easy-Pay plan. We are now offering a "paper-free", "postage-free", "hassle-free" way for you to take care of your alarm monitoring payment.

On the back side of this newsletter is a form for you to fill out allowing us to automatically deduct your monthly monitoring bill from your checking or savings account. Just fill it out once and you'll never need to worry about mailing us a check on time. Provide an e-mail address and we'll send you a monthly receipt letting you know that we've received your payment. You'll even continue to receive our quarterly newsletter attached to the e-mail, so you'll never miss out on the reminders we like to send you about using your alarm properly and possible changes or updates to your system.

For more information see our website at
ArvinHomeSystems.com
 or call us at
(209) 823-3565

Don't forget, you are responsible for maintaining your alarm system.

We are here to repair any problems, but we must rely on you to let us know when they happen!

We want to make sure that you're getting what you're paying for
 -communication between your alarm system and our monitoring company!
