## Cheat Sheet

Hello Everyone! On the back of this month's newsletter you'll find one version of what we like to refer to as a "Cheat Sheet". It shows most, if not all of the alarm commands you'll ever need. Now, this is just one Cheat Sheet for one of our models of alarm systems out there. Your's may be different. If it is, then just head on over to our website at [ArvinHomeSystems.com](http://ArvinHomeSystems.com) and go to the 'Trouble Guide' link within the 'Alarm Systems' section. Or just go directly there: <http://www.arvinhomesystems.com/troubleshooting1.htm> Scroll down and look for the keypad that looks like yours and click on the "Cheat Sheet" link. You'll be able to print out your own. Otherwise, if you ever need any help or have any questions, please call us at: (209) 823-3565 and we'll be more than happy to take care of you!

## CRIME STATISTICS

We believe objectivity is the hallmark of any good company. That does not mean, however, that objective facts aren't cause for some concern. Here are some crime statistics that may interest you:

### Points of Entry percentages

(Pennsylvania study, Source: Simon Hakim, Temple University)

- 81 percent gained entry on the first floor.
- 34 percent through the front door.
- 23 percent through a first floor window.
- 22 percent through a back door.
- 9 percent through a garage.
- 4 percent through a basement.
- 4 percent through an unlocked entrance.
- 2 percent through a storage area.
- 2 percent somewhere on the second floor.

### Also

- Homes without security systems are three times more likely to be burglarized than homes with security systems.
- 41 percent of homes with alarm systems that were burglarized, did not have the alarm turned on.
- 12 percent of the burglaries occurred through an unlocked door.

Don't forget, you are responsible for maintaining your alarm system.

We are here to repair any problems, but we must rely on you to let us know when they happen!

We want to make sure that you're getting what you're paying for -communication between your alarm system and our monitoring company!

For more information see our website at
