

A little history of our company...

Arvin's Quality Home Systems was founded by Arvin Reed in 1976. He began installing central vacuum systems in homes in the valley. Working often for builders and homeowners, he added to his line of products other low-voltage systems such as intercoms and home music systems.

In 1988, Arvin received his alarm license and began installing alarm systems in homes and businesses. In the 1990's, Arvin began working for several major custom home builders in the area and eventually several community builders.

By 1999, all three of Arvin's sons joined the company and they all decided to change the company name to "Arvin Home Systems, Inc.", or AHS. While we're most known for our alarm systems, we continue to install home theater and home audio systems, network and TV cabling, surveillance cameras, and of course, central vacuums.

AHS presently employs twelve full time workers and staff. We pride ourselves in customer service and quality workmanship. We are also involved in community activities such as the South County Crime Stoppers, Manteca Sunrise Kiwanis Club, the Manteca Boy's and Girl's Club, Give Every Child a Chance, and many others.

We couldn't be the company we are without you - our customers. We are proud to serve you and our communities.

A Reminder:

Please make sure your monitoring information is correct and up to date. Knowing your verbal password is very important for us to verify that you are who you say you are. You will be asked for it if you call to make any changes or if we call you because your alarm system tripped. If you don't remember your verbal password, give us a call while things are calm and we'll ask you a few questions to verify your identity. From there, we can help you update your monitoring information. Thank You!
